## GENERAL NOTICE TO PTHA MEMBERS

The PTHA Board wishes to remind all homeowners that Sandoval County requires you have address numbers which are highly visible from your primary access to your property and are made of highly reflective material or are illuminated from above so as to be seen clearly at night.

The Board contacted Sandoval County and they are no longer supplying the reflective numbers. They stated it is up to the homeowner to comply with this ordinance.

Not only is this a requirement but it important in assisting the sheriff, fire department, or EMTs when they are trying to find your property. Yes, they use a GPS navigation system but best to make it as easy as possible for them.

Sincerely,  
PTHA Board of Directors
